**ADP**

**Enterprise ETIME (version NA)**

For those EMS Agencies who track their EMT's, Paramedics and Registered Nurses with ADP's Enterprise ETIME software EMS Toolkit can further assist you as it is capable of accessing employee schedules seamlessly.

Enterprise ETIME is a product of ADP and any of the trademarks, service marks, collective marks, design rights, personality rights or similar rights that are mentioned, used or cited herein are the property of ADP exclusively.

**HR Perspective (version NA)**

EMS Toolkit provides a great way to integrate your Web-Based Intranet Software solution into your ADP HR Perspective program. Display in real time employee salaries, contact information or any other information that is stored with the HR Perspective program by your HR department.

HR Perspective is a product of ADP and any of the trademarks, service marks, collective marks, design rights, personality rights or similar rights that are mentioned, used or cited herein are the property of ADP exclusively.

**PC Payroll (version NA)**

The EMS Toolkit web-based intranet software allows for instant web based access to your PC Payroll solution. With our secure servers you are able to extend the power of the PC Payroll system to your EMT's, Paramedics and Registered Nurses quickly and easily.

PC Payroll is a product of ADP and any of the trademarks, service marks, collective marks, design rights, personality rights or similar rights that are mentioned, used or cited herein are the property of ADP exclusively.

**Microsoft**

**Active Directory (version 2000/2003/2008)**

Do your employees need to remember a dozen different passwords for a dozen different software applications? This very problem creates users who write their passwords down for others to find. EMS Toolkit integrates securely into your existing Microsoft Active Directory enabled network. Your employees will enjoy a single username and password to login to both your corporate network, their email and the EMS Toolkit Web-Based Intranet Software.

Active Directory is a product of Microsoft and any of the trademarks, service marks, collective marks, design rights, personality rights or similar rights that are mentioned, used or cited herein are the property of Microsoft exclusively.

**Office Products (version 2000/2003/2007)**

Does your EMS agency utilize the Microsoft Office software package, including Access, Word or Excel? EMS Toolkit can easily integrate into any of these program securely and with little configuration or setup. Need reports exported to Excel, not a problem with EMS Toolkit or maybe you need disciplinary letters exported to word, again not a problem with the integration between the EMS Toolkit Web-Based Intranet Software Microsoft Office products.

Office, Access, Word and Excel are products of Microsoft and any of the trademarks, service marks, collective marks, design rights, personality rights or similar rights that are mentioned, used or cited herein

are the property of Microsoft exclusively.

#### **SQL Server (version 7+)**

EMS Toolkit is so powerful and flexible that it can integrate with any third party program that utilizes a Microsoft SQL Server for back-end data storage. Do you have a software package that was not specifically mentioned on this page? Does it use Microsoft SQL Server? If so, EMS Toolkit can connect with that software as well. All done over a secure connection and tightly supervised custom development to ensure the highest quality custom solutions.

SQL Server is a product of Microsoft and any of the trademarks, service marks, collective marks, design rights, personality rights or similar rights that are mentioned, used or cited herein are the property of Microsoft exclusively.

#### **Numera Software**

##### **Track-IT! (version 6.5 +)**

Track-IT! is an enterprise solution that allows your agency to handle the day to day support work load that comes in from your employees. EMS Toolkit can easily connect to your Track-IT! system. This solution allows for your staff to quickly and easily be able to view, submit and even update their work orders from within the EMS Toolkit web-based intranet software environment

Track-IT! is a product of Numera Software and any of the trademarks, service marks, collective marks, design rights, personality rights or similar rights that are mentioned, used or cited herein are the property of Numera Software exclusively.

#### **Zoll Data Systems**

##### **Crew Scheduler (version 2+)**

Connecting into your existing Zoll Data System Crew Scheduler System is now possible. Run detailed reports to give your employees a dashboard that compares their attendance to the rest of the company.

Crew Scheduler is a product of ZOLL DATA SYSTEMS and any of the trademarks, service marks, collective marks, design rights, personality rights or similar rights that are mentioned, used or cited herein are the property of ZOLL DATA SYSTEMS exclusively.

##### **Nomad / Navigator (version N/A)**

EMS Toolkit can now connect seamlessly into Zoll Data Systems Navigator Solution. Easily track response times, out of chute times, time on task times and so much more with your mobile Navigator Solution.

NAVIGATOR is a product of ZOLL DATA SYSTEMS and any of the trademarks, service marks, collective marks, design rights, personality rights or similar rights that are mentioned, used or cited herein are the property of ZOLL DATA SYSTEMS exclusively.

##### **RightCad / Sanitas (version 4 +)**

EMS Toolkit now offers full connectivity into your RightCad / Sanitas system. This solution allows for numerous custom reports and dashboards that keep you and your management staff up to date with real-time information.

RIGHTCAD/SANITAS is a product of ZOLL DATA SYSTEMS and any of the trademarks, service marks, collective marks, design rights, personality rights or similar rights that are mentioned, used or cited herein are the property of ZOLL DATA SYSTEMS exclusively.

\* Any of the trademarks, service marks, collective marks, design rights, personality rights or similar rights that are mentioned, used or cited herein are the property of their respective owners.
